

Clinic Highlight Fowler Community Clinic

We are fortunate to be able to offer healthcare not only in our community but surrounding communities as well.

The **Fowler Community Clinic** was built in 1995 by Charles G. Stephens, MD and it now offers health care from several of our physicians that alternate seeing patients there throughout the week.

The receptionist is Marca Berger. She has been with us since 2014. She enjoys working there because she is able to add her own personal touch and she really enjoys the patients that come in for health care.

Tina Meade is a medical assistant that travels to the Fowler Clinic 1 1/2 days a week. She has been with the clinic for 3 years and says she really enjoys the slower pace and quiet atmosphere. She also said that she is able to do more hands on tasks such as drawing lab.

Natalie Carrillo is the other nurse that travels to Fowler on a regular basis. She is there 4 days a week. Her 3 children keep her on her toes with gymnastics, sports activities and her youngest son being almost 2 years old. Natalie started with MDH in 2008 as an LPN. She is now an RN and has worked at the clinic since 2013. She says she likes our patients and especially likes working with our providers.

LONG TERM CARE

The Long Term Care Residents have been busy during the month of July. We had our 4th of July Social on July 2nd. We enjoyed fruit kabobs and punch over great conversation.

On July 19th we celebrated birthdays of five residents we had birthday parties with Linda Barns bringing in three different cakes and a sing along. The residents birthday that we celebrated- Becky Boehs the 12th, Phyllis Hurley the 16th, Helen Swisher and Linda Curry the 23rd, Mary Lou Agur the 25th and Oscar Penka the 30th. We are looking into remodeling the Dining room and living room so the Residents and staff got a chance to help pick out the flooring for the dining room. New blinds went up last month in the dining room. They give the dinning room a warm and cozy feeling.

Let's Talk About It

Stop by the display case in the front hospital lobby and look at some of the items from the present and 60 years back. This certificate of Dr. Richardson's was found behind some furniture when the clinic moved into its new space. The medical certificate is over 60 years old! Below is an old Cystoscope that was used by Dr. Charles many years ago

Minneola Healthcare
